

## CONNECTED

### *Flexible scaling*

Multi-profile global connectivity  
One SIM for all destinations  
Granular management

## PROTECTED

### *Agile security*

End-to-end security  
Full data privacy  
Secure mobile network

## SUPPORTED

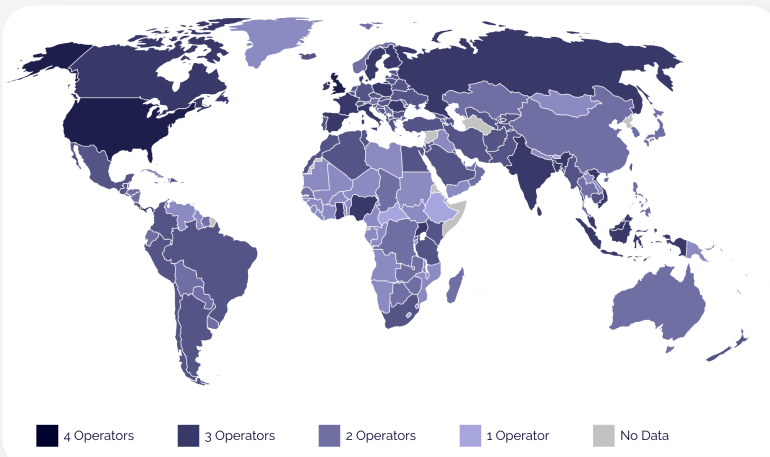

### *Enriched functionality*

Custom SIM applets  
Simplified deployment & admin  
Enhanced analytics

# If technology was no object, what would your connectivity do for you?

ZARIOT and ecosystem partners elevate your functionality and speed to market, while addressing security and regulation

## One Simple Contract. One Global SIM. Your Connectivity+ Partner.

**+190 countries**

**+650 networks**

**5G, 4G, LTE-M,  
NB-IoT, 3G, 2G**

### IoT modelled pricing

*Flexible, tailored pricing with pooled data to support your needs and success*

### IoT modelled pricing

*Optimised operator selection to maximise user experience*

### Enhanced connectivity

*Multi-technology network access maximising coverage, performance & battery life*

### Simple management

*Easy provisioning & lifecycle management, with remote QoS testing & reporting*

*"Our customers demand reliable connectivity and enterprise-grade security: we found both with ZARIOT and are pleased to be a trusted partner."*

**MOBILE TECH**

GLOMO

Best Mobile Authentication & Security Solution

**ZARIOT**  
Global SIM with cloud protection

**WINNER**

**Future Digital Awards**

**Gold Winner**

eSim Innovation of the Year

Smart Cities & IoT Innovation Awards 2022

**JUNIPER RESEARCH**

CC - GLOBAL AWARDS 2022

Proud to be a Winner

Category: **BEST IoT SOLUTION PROVIDER**

Winner: **ZARIOT**

Carrier Community

## More than a SIM: enhanced IoT connectivity

### Custom SIM applets

Development resources on SIM tailored for your device or service

### Enhanced analytics

Unique 'device eye view'  
Quality of Service with comprehensive, exportable reports

### Simplified deployment & admin

Secure access with remote provisioning and easy configuration

### SIM-based security features

Supports current and upcoming regulatory frameworks

## ZARIOT portal : customisable for your needs

### Easy integration

Extensive, simple open APIs allow you to easily integrate into your own environment

### Agile management

'Single pane of glass' management to track, troubleshoot and react

### User-friendly

Simple, streamlined user experience, with quick reactive support when needed

### Greater control

We own and operate our own core network functions, ensuring greater control

### Deep insights

Real-time visibility for your devices, from individual to fleet-level

### Multitenancy

A multitenant platform allows you to futureproof your business growth with simple consolidated management

Learn how ZARIOT & our ecosystem can support your goals
